

BID NO. DD1290
CITY OF RIVERSIDE
NOTICE INVITING FOR INFORMAL BIDS
STEEL POLE PURCHASE

SCOPE

1. This specification outlines technical requirements, when applicable, for the design, shop detailing, fabrication, galvanizing, and delivery of complete single steel pole structures. The steel pole structures will be used in the construction of the Project.

2. In addition to the fabrication and delivery of completed steel pole structures, requirements for detail drawings and design calculations to be furnished by the Fabricator are provided in Part 2.E of this specification.

3. Poles designated as "LD" are based on Thomas and Betts standard light duty pole catalogue. Alternate designs must have the equivalent moment capacity along the entire pole length in addition to the moment capacity at the ground line (10% + 2ft. from the pole base).

Bid Due March 29, 2004 at 5:00 p.m.

Place: Deliver sealed proposals to the Sr. Procurement & Contract Specialist, 3900 Main Street, 6th Floor, Riverside, California prior to the hour indicated above so that receipt of bid may be properly noted.

Bid prices shall be firm for 60 days from date of proposal opening to permit staff evaluation. Upon award, prices quoted will be in effect for the term of the contract.

The City of Riverside reserves the right to waive any irregularities or informalities and further reserves the right to reject any or all bids.

DAVID G. DEWEY
Sr. Procurement & Contract Specialist
